X INTERNATIONAL SYMPOSIUM

# ROAD ACCIDENTS PREVENTION 2010

Novi Sad, Serbia, 21<sup>st</sup> and 22<sup>nd</sup> October 2010.

## INVITATION

We are pleased to invite you to the **X International Symposium “ROAD ACCIDENTS PREVENTION 2010”** which will be held in **Novi Sad, Serbia on 21<sup>st</sup> and 22<sup>nd</sup> October 2010**. The Symposium is organized by:

- Faculty of technical sciences, University of Novi Sad
- Faculty of Traffic and Transport Engineering, University of Belgrade
- Academy of Criminalistic and police studies, Zemun
- Serbian Road Safety Association and
- Traffic Safety Media

With support of

- International Road Safety Organization La Prévention Routière Internationale PRI
- World Health Organization-Regional Office for Europe
- South-East Europe Transport Observatory (SEETO)
- Ministry of Infrastructure, Republic of Serbia and
- Ministry of Interior, Republic of Serbia

## BACKGROUND AND SCOPE

Road safety is the concern of all us. Road safety improvement could be successfully achieved only if all interested stakeholders, organizations and individuals tackle the issue simultaneously with the maximum efforts. This Symposium is the 10<sup>th</sup> in a series of road safety symposiums starting in 1990 and the main objective of the Symposium is to achieve more efficient road risk and road safety resources management. To achieve this target it is necessary to focus on the following:

- **Detail analysis and evaluation of** actual problems, trends, accident's etiology and phenomenology, experience, knowledge, emerging research and developments in road safety.
- **According to the given knowledge and experience, development of the appropriate road safety strategy and accident prevention system.**

Special emphasis is directed towards the application of research with the motive to involve both developed countries and countries in transition and to share the best practice.

## THEMES AND TOPICS

Main themes and topics of the symposium are:

1. Road safety organization and management
2. Road safety strategic documents
3. Road safety measures
4. Road safety models and tools
5. Road safety factors:
  - Human
  - Vehicle
  - Road and
  - Environment.

X INTERNATIONAL SYMPOSIUM
